Paul M. Karpecki, OD

Paul M. Karpecki, OD, FAAO, received his doctor of optometry degree from Indiana University and completed a fellowship in medical cornea and refractive surgery in Kansas City in affiliation with the Pennsylvania College of Optometry, now Salus University. He is currently the Director of corneal services and the Advanced OSD Clinic at the Kentucky Eye Institute. Dr. Karpecki was appointed to the Delphi International Society at Wilmer-Johns Hopkins, which included the top 25 dry eye experts in the world and the National Eye Institute's Dry Eye Committee to provide insights around dry eye and women. He also co-chaired the Dry Eye Summit for the profession, was a director in the CJO Optometric Dry Eye Guidelines for EyeCare, was recently selected for the DEWS II Diagnostic sub-committee and most recently appointed co-chair of the Tear Film and Ocular Surface Society Symposium in 2016 taking place in Montpellier France. He has over two decades experience in running some of the largest dedicated dry eye clinics in the United States. A noted educator and author, Dr. Karpecki has provided over 1000 lectures at various meetings covering 4 continents. He has also authored over 1000 papers in journals, book chapters, clinical eblasts and newsletters. He currently serves as the Chief Clinical Editor for Review of Optometry and Chairs the New Technology and Treatment Conferences. He is also on the board for the charitable organization Optometry Giving Sight.

Katherine Bickle, OD

Dr. Bickle is a clinical instructor and PhD student at The Ohio State University College of Optometry. She is also in private practice at ProCare Vision Centers in Granville, OH. She graduated with a Master of Science in Vision Science and Doctor of Optometry degrees from The Ohio State University. While attending optometry school, she was awarded the National Eye Institute T35 research grant. Her master's degree research focused on children's visual performance objectively and subjectively with soft multifocal contact lenses. She completed a cornea and contact lens fellowship at the University of Houston College of Optometry. Dr. Bickle remains involved with clinical studies.

Richard A. Erdey, MD

Dr. Erdey is a cataract, corneal and refractive specialist. His training included an ophthalmology residency at North Shore Cornell Medical Center in New York where he was chief resident. During his Cornea Fellowship at The Ohio State University, he participated in the first Excimer PTK trials and subsequently co-directed the Cornea Research Laboratory at The University of Rochester where early clinical VISX PRK trials were conducted. He returned to Columbus in 1992, and is the founding partner and Medical Director at both the Erdey Searcy Eye Group and East Columbus Surgery Center. Dr Erdey was a clinical investigator for the Visian Implantable Contact Lens (ICL) and his patient was the first in Ohio to have this implant in 1998. He is a champion of targeted cornea transplantation and as an advisor to Central Ohio Lions Eye Bank helped bring DSEK, DMEK and Large-diameter DALK to Columbus. In 2014, he became the first in Central Ohio to perform Dropless cataract surgery which has since become the standard of care in his practice. Dr. Erdey has published numerous articles and lectures extensively.

Gregory D. Searcy, MD

Dr. Searcy is an ophthalmologist practicing at the Erdey Searcy Eye Group in Columbus. He is also a Clinical Assistant Professor at The Ohio State University. Dr. Searcy graduated with a doctor of medicine degree from The Ohio State University. He was a resident and chief resident at the St. Francis Medical Center Department of Ophthalmology in Pittsburgh. Dr. Searcy lectures extensively and has been involved in numerous clinical studies.

Samuel Gallo, MD

Dr. Gallo is an Oculoplastic specialist practicing in Columbus and Central Ohio. He completed his Ophthalmology Residency at The Jules Stein Eye Institute at UCLA Medical Center. After a Fellowship in oculoplastics, Ocular Oncology, Orbital Diseases and Orbital Reconstruction at the University of Tennessee in Memphis, he completed an additional year in Oculoplastics, Orbital Diseases and Orbital Reconstruction. He specializes in eyelid, orbital, tear duct and cosmetic facial surgery and uses Botox for functional and cosmetic uses.
